

COTTAM

Table Brushes

EVERYTHING YOU NEED TO KNOW...

COTTAM

Cottam's range of table brush solutions reliably prevent the scratching and transportation issues faced when working with and processing sensitive surfaces such as sheet metal, furniture panels or glass. Our table brush range has been designed to cope with the wide range of demands for each particular application meaning you can produce faultless products for your customers.

Benefit include:

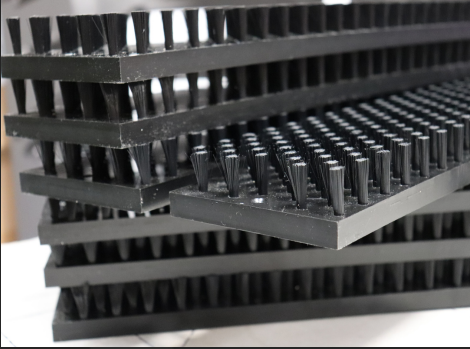

- Easily move and convey your material on thousands of individual flexible bristle tufts
- Replacement of panels and tiles available
- Tiles available to create your own modular design
- Can be customised to meet your specific criteria

OUR PRODUCTS

Cottam's table brush tiles and panels are produced with 0.3mm nylon in a staggered pattern as standard. Custom options are available and we can match any product.

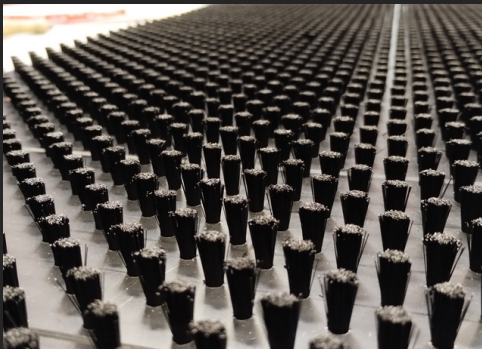

Table Brush Tiles

Cottam's table brush tiles give you the freedom to create your own modular table brush in any configuration.

- Sold in boxes of 10
- Each tile is 500mm x 100mm or 150mm
- Available in straight or staggered fill

Fully Built Assembly Table

All the benefits of our brush tiles readily assembled and fitted on custom cut ply wood sheets to create an assembly brush table built to your specification.

- Custom made to your specification
- Made using our table brush tiles

Panel Brush

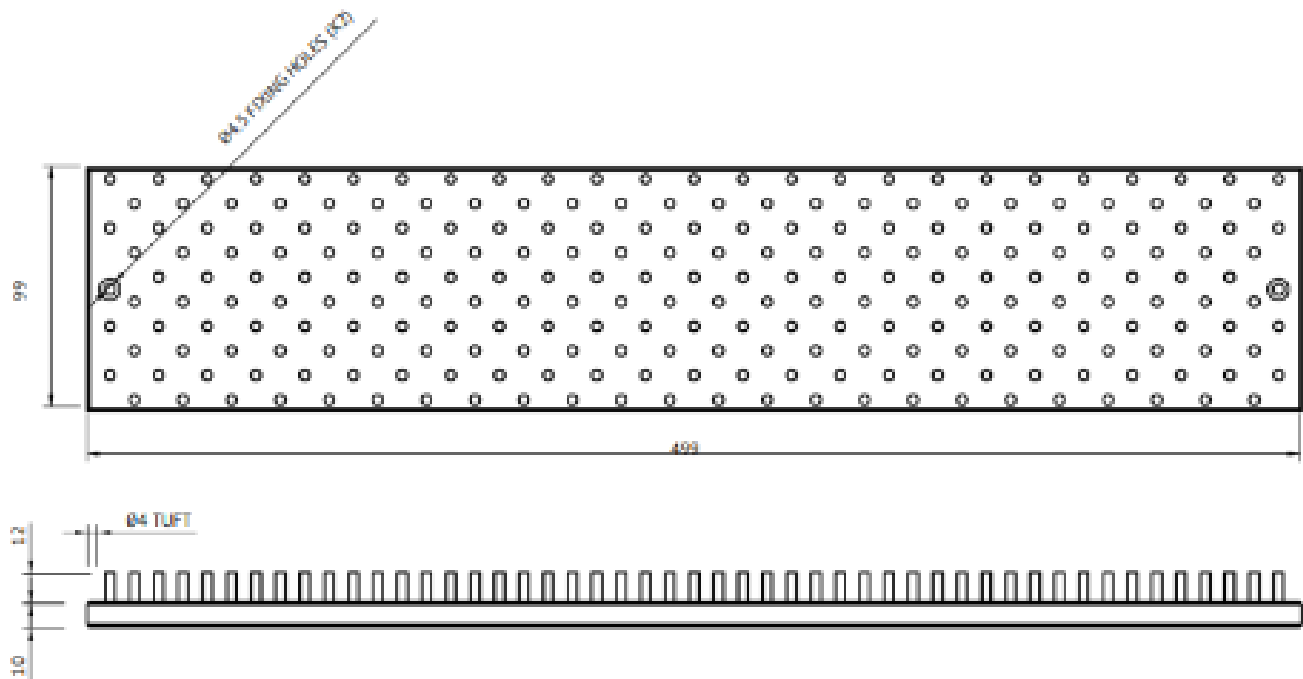

Custom built replacement turret machine panels available in any size or shape up to 2m x 0.9m

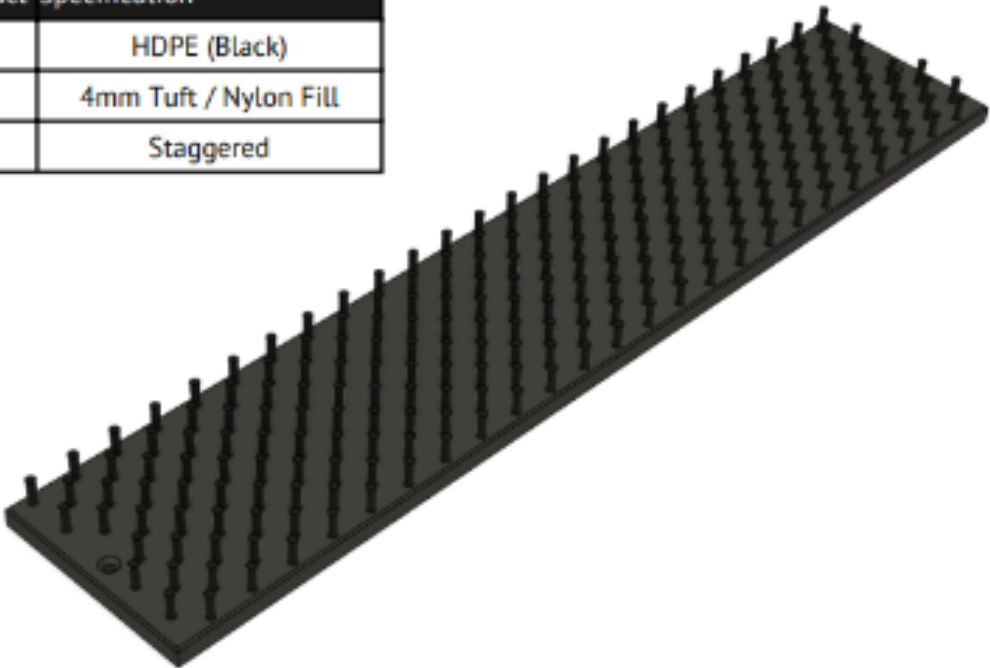

- Made to measure
- Can be made to fit the configuration of your machinery
